

SpagoWorld Newsletter N°11 - October 2009

Dear Subscriber,

Here is again our monthly newsletter with SpagoWorld latest news, events and communications, such as Spagic 3.0 and SpagoBI 2.3 releases as well as some new partnerships!

Best regards,

SpagoWorld Communications

News

Spagic 3.0 Release Candidate available now!

Spagic 3.0 Release Candidate offers an innovative approach to the governance of middleware services, based on an OSGi Service Platform. It also allows the execution of SOA applications through Universal Middleware, which is highly modular and configurable around an OSGi kernel.

Download Spagic 3.0 [here!](#)
