

SpagoWorld Newsletter N°13 - December 2009

Dear Subscriber,

We are pleased to share with you the last newsletter of 2009, including SpagoWorld most important news, events and communications of December, such as SpagoWorld new website as well as SpagoBI/Ingres Analytical Platform and SpagoBI 2.4 releases.

We wish you our warmest season's greetings and hope to see you soon!

Best regards,
SpagoWorld Communications

News

☑ New SpagoWorld website

SpagoWorld team is proud to announce the new SpagoWorld (www.spagoworld.org) and projects websites, with an entirely renovated structure and a lot of new interesting contents. We invite you to visit it, in order to be constantly updated with the news, events and communications about SpagoWorld projects. We also hope to receive many suggestions, which could help us improve it.

SpagoWorld website is going to be regularly improved and enriched next year as well: stay tuned!

☑ SpagoBI/Ingres Analytical Platform released: a new bundle OSBI solution

The collaboration between Engineering, leading provider of IT services, and Ingres Corporation, the leading open source database management company and pioneer of the "New Economics of IT", has given rise to a new bundle enterprise solution for Business Intelligence projects, which is entirely open source.

☑ SpagoBI 2.4 released!

SpagoBI 2.4 is now available. You can download it [here](#).

Among the most important innovations, it offers:

- a new version of SpagoBI Server with:
 - note management, customizable by user and role
 - QbE improvement (calculated fields, value selection lookup for filters, opportunity to overwrite the saved queries, new exporter)
 - Business metadata management
 - GIS engine, through the integration of GeoReport engine released by Inova
- first release of SpagoBI Studio, which allows to work within a single integrated draw environment, such as Jasper report, BIRT report, Chart, Dashboard, Composed document and GEO document.
- first ALFA release of SpagoBI Meta allowing the management of technical metadata.

SpagoBI 2.4 Demo will be available soon.

Events

☑ Solutions Linux 2010

Location: Paris, France

Date: 16th - 18th March 2010

Engineering is going to participate in the 11th edition of [Solutions Linux](#).

The open source solutions SpagoBI, Spagic and Spago4Q are going to be presented at Engineering's booth in the OW2 village, located in the exhibition area.

Ecosystem

☑ New Success Story: SpagoBI for SIAR

The Open Source Business Intelligence solution SpagoBI has allowed the Agricultural Informative System of the Emilia-Romagna Region (SIAR) to take advantage of an entirely open source platform to build reports and perform multi-dimensional analysis on the informative system, concerning various rural activities.
