

SpagoWorld Newsletter N°16 - March 2010

Dear Subscriber,

Have a look at SpagoWorld newsletter of March, offering several interesting news, events and communications, such as SpagoBI latest innovations, SpagoWorld Blog and Webinar Center as well as Engineering's partnership with the Italian Open Source Competence Center.

Best regards,
SpagoWorld Communications

News

SpagoBI latest innovations

SpagoBI is progressively being enriched with new features and engines. We have decided to underline this evolution, placing SpagoBI in the market as **"the only entirely Open Source Business Intelligence suite"**. Have a look at:

- the new [SpagoBI Suite](#) page, describing its wide range of entirely open source analytical tools
- [SpagoBI Architecture](#)
- the new [Support](#) and [Training](#) services
- the new [Roadmap](#) for 2010

New SpagoWorld Blog

SpagoWorld team is pleased to announce the opening of SpagoWorld Blog, which is the result of the wish of some members of SpagoWorld community to periodically share with you their ideas, remarks and general information, concerning the following domains:

- Open Source Business Intelligence
- Locations Intelligence
- Open Source SOA
- Open Quality
- Ecology of Value

Go to the new [SpagoWorld Blog](#) now!

New SpagoWorld Webinar Center

The first session of free web-based seminars, focusing on some interesting features or solutions related to SpagoWorld projects, is available now! The participation is free and access is on a "first-registered-first-served" basis. The registration will be available as from 1st April 2010.

Events

Solutions Linux follow-up

Location: Paris, France

Date: 16th - 18th March 2010

Follow us with the results of Engineering's participation in the eleventh edition of Solutions Linux:

- Download [here](#) the presentations, supporting the speeches on SpagoWorld projects
- Have a look at the photos of the event [here](#)
- The interviews, given on the spot by some SpagoWorld team members, will be available soon in SpagoWorld [Media](#) area.

For a complete overview on the event, visit [OW2 Consortium website](#).

Spago4Q at OSS 2010

Location: Notre Dame University, Indiana, USA

Date: 30th May - 2nd June 2010

The programme of the event [OSS 2010](#), the next international conference on open source software, includes the presentation of the article "[Spago4Q and the Quest nD Model: an Open Source Solution for Software Performance Measurement](#)", by Claudio A. Ardagna, Ernesto Damiani, Fulvio Frati, Sergio Oltolina, Mauro Regoli and Gabriele Ruffatti.

[Further information](#)

Red Hat Open Source Day

Location: Rome, Italy

Date: 17th June 2010

Engineering and SpagoWorld participate in the Red Hat Open Source Day, taking place in Rome on 17th June 2010.

Further details will be available soon.

EclipseCon 2010

Location: Santa Clara, California, USA

Date: 22nd - 25th March 2010

Engineering, Eclipse Solutions Member, participates in [EclipseCon 2010](#), presenting two new proposals, within the Eclipse SOA Top Level projects:

- **eBAM:** a Business Activity Monitoring solution, supporting the event analysis and management, for the governance of distributed systems
- **eBPM:** a complete Business Process Management solution, OSGi standard based, providing both runtime and tools for design, development and management activities.

Engineering Group participates in the event OSGi DevCon 2010, hosted by EclipseCon. Engineering's membership of [OSGI Alliance](#) is underlined by the promotion of this technology, in particular by Spagic project.

The complete program of the event is available [here](#).

Spago4Q at the University of Perugia

Location: Perugia, Italy

Date: 19th March 2010

Sergio Oltolina, Spago4Q project leader and Senior Technical Manager, Engineering's Research and Innovation Division, held a seminar, entitled "[Open Source for the Quality of Software, Engineering's approach](#)" within a course on Software Quality at the Faculty of Engineering at the University of Perugia. Sergio also presented a real use case, focused on Spago4Q, the free/open source platform to measure, analyse and monitor the Quality of products, processes and services.

Ecosystem

New SpagoBI Training and Support Services

SpagoBI Training program has been entirely renovated and enriched with a new range of services and supply methods! They have been conceived so as to meet everyone's requirements, on different knowledge levels.

[Further details](#)

As for **SpagoBI Support services**, now two different supply methods are available:

- **User support** - The service concerns the support to anyone who uses SpagoBI suite for the development of projects and applications. It includes guaranteed replies to questions concerning the proper use of the suite.
- **Maintenance** - The service concerns the maintenance of SpagoBI suite and includes bug-fixing activities.

[Further details](#)

Engineering, foundation partner of the Italian Open Source Competence Center

Engineering is a foundation partner of the [Italian Open Source Competence Center](#), a no-profit no-loss consortium, fostering the development and adoption of Open Source software, offering training, education, consultancy, quality and labelling services. In particular, Engineering is technically responsible for the labelling infrastructure of the Competence Center, based on [Spago4Q platform](#). The Italian Open Source Competence Center is operating as from April 2010.
