

## SpagoWorld Newsletter N°19 - June 2010

### Dear Subscriber,

Have a look at SpagoWorld newsletter of June, including a lot of interesting news, such as the launch of GeoBI initiative, the new session of SpagoWorld webinars, OSCON 2010, the Eclipse SOA/Interoperability Day 2010 in Italy as well as some new Success Stories.

Best regards,  
SpagoWorld Communications

### News

#### Engineering Group announces the GeoBI initiative

Engineering Group announces the [GeoBI initiative](#), a new international open source initiative on Location Intelligence. The initiative aggregates companies, organizations, project communities and individuals into an open community, which aims to foster the cooperation between Business Intelligence and Geographical Information Systems as well as to support research activities.

#### New session of SpagoWorld webinars in Italian

A new session of SpagoWorld webinars is delivered in Italian within SpagoWorld Webinar Center. The webinars focus on various topics, such as SpagoBI and Location Intelligence, Real-time Business Intelligence, Spagic Universal Middleware. Participation is free and access is on a "first-registered-first-served" basis.

Further information and subscription are available in the [SpagoWorld Webinar Center](#).

#### Spago4Q Builder and Documentation

Now Spago4Q project offers the opportunity to the whole community to access the information available in its build system. It is used to monitor the consistence of the code of the [SVN Repository](#) as well as to develop [Nightly Builds](#). To access the Builder, whose link is available on [Spago4Q project website](#), click [here](#).

Moreover, the structure of [Spago4Q Documentation area](#) has been renovated. The current structure allows to quickly identify the informative and descriptive documents related to the platform and the documentation supporting end-users' and developers' activities.

### Events

#### OSCON 2010

**Location:** Portland, Oregon (USA)

**Date:** July 19<sup>th</sup> - 23<sup>rd</sup>, 2010

Engineering Group participates in OSCON 2010, along with QualiPso project and OW2 Consortium. In particular, Davide Dalle Carbonare, Spago4Q architect, presents [Spago4Q](#), the free/open source platform to measure, analyze and monitor Quality of products, processes and services, at QualiPso and OW2 booths.

[Further information](#)

#### Eclipse SOA/Interoperability Day 2010 in Italy

**Location:** Rome, Italy

**Date:** October 5<sup>th</sup>, 2010

Engineering Group announces the Eclipse SOA/Interoperability Day 2010. In collaboration with Eclipse Foundation and supported by vendors and IT leaders, it specifically addresses the business market. The event focuses on experiences and present use cases concerning the adoption of open source and Eclipse-based technologies. It also offers the opportunity to face some hot topics in the SOA and Interoperability domains. [Further information](#)
