

SpagoWorld Newsletter N°25 - January 2011

Dear Subscriber,

First of all, SpagoWorld team wishes you a happy and prosperous new year. We thank you for supporting and contributing to the continuous growth of [SpagoWorld initiative](#), hoping to share with you the 2011 developments as well.

This year will offer a lot of projects innovations and international open source events, which will be announced in the next issues. Stay tuned!

Best regards,
SpagoWorld Communications

News

Real-time Business Intelligence with SpagoBI!

The new 0.8 version of eBAM, the real-time engine for SpagoBI, has been released. Download it [here!](#)

This new release includes many improvements, such as some new wizards to configure Rules, Services and Messages. Detailed information about eBAM is available on eBAM website: www.eclipse.org/ebam. Visit [eBAM Documentation webpage](#), including the Wiki, the Demo and some Movies, presenting the main features of this solution.

Call for Participation in the GeoBI Initiative!

The [Call for Participation](#) in the GeoBI Initiative is still open!

The initiative aims to create an open community to make the Location Intelligence adoption pervasive. All companies and actors, involved in the Location Intelligence domain and basing their products on open source software and/or open standards, are more than welcome. [More details](#)

The GeoBI Initiative is also on **Twitter!** More than 100 followers from all over the world are already in touch with this initiative aiming to make the Location Intelligence adoption pervasive! [Join us now!](#)
