

## SpagoWorld Newsletter N°27 - April 2011

### Dear Subscriber,

SpagoWorld initiative and its open source solutions are enriching their offering with new functionalities in line with end-users' needs, such as the ones provided by the upcoming SpagoBI 3.0 release, including BI on-demand, cloud BI, mobile BI and much more. Moreover, SpagoWorld is involving new actors in its open source ecosystem through the new free Supporting Partnership and many benefits for new partners. Last but not least, SpagoWorld solutions are participating in a lot of international events such as Solutions Linux: we are looking forward to meeting you in Paris!

Best regards,  
SpagoWorld Communications

### News

#### SpagoBI for Cloud available now!

SpagoBI, the only entirely open source Business Intelligence suite, enriches its offering with the new Cloud BI service. It allows you to use an instance of SpagoBI Server, through a remote connection, in order to customize it, upload your data and deploy your analysis.  
[More details](#)

#### SpagoBI Suite on-demand available now!

The SpagoBI "On-Demand evaluation" service allows you to get a quick evaluation of SpagoBI suite effectiveness through the agile development of Proof of Concepts and/or Pilot Projects. The service is delivered directly by SpagoBI core team, who guarantees the best result at the lowest price.  
[More details](#)

#### SpagoShop is open now to buy SpagoWorld services on-line

SpagoShop is the on-line shop where you can buy the support services and training courses of SpagoWorld solutions. Create your account now, browse the on-line services and put them into your shopping cart, to buy them at advantageous prices! The preview of the recorded training courses that you can buy in SpagoShop are available in the [Media area](#) of SpagoWorld website.

#### SpagoBI 3.0 is coming soon! Released next June!

SpagoBI team announces that SpagoBI 3.0 will be released next June. This new version will include a lot of new functionalities, services and solutions, such as [SpagoBI on-demand](#), ad-hoc reporting, in-memory analysis, mobile BI, [Cloud BI](#), real-time BI, location intelligence.  
More details and the **Press Release** are available [here](#).

#### eBPM 0.7-Runtime Release available now

eBPM 0.7-Runtime Release has been released. Download it [here](#) now!  
The eBPM (eclipse Business Process Management) project aims to realize a complete BPM solution for OSGi. The eBPM project provides UI and runtime support, to allow to deploy and manage the OSGi services in a declarative way as well as to leverage the capabilities of the OSGi declarative services.  
Moreover, the eBPM project enriches and consolidates [Spagic](#) core, thanks to the adoption of the Eclipse solution, which is already considered to be one of the most efficient open source products on the market.

### Events

#### Italian Ubuntu Party

**Location:** April 30<sup>th</sup> - May 1<sup>st</sup>, 2011

**Date:** Schio, Vicenza (Italy)

SpagoBI participates in the first [Italian Ubuntu Party](#), two days thoroughly dedicated to Ubuntu including talks, demos, installations and debates. Monia Spinelli, SpagoBI developer, presents SpagoBI, the 100% open source Business Intelligence suite, and the relation between enterprises and open source software communities. The speech takes place on 30<sup>th</sup> April from 3:00 to 3:45 p.m. (CET).  
[More details](#)

#### Solutions Linux 2011

**Location:** Paris, France

**Date:** 10<sup>th</sup> - 12<sup>th</sup> May 2011

Also this year Engineering Group participates in [Solutions Linux](#), both in the conference program and in the exhibition area, with a booth within OW2 Village. The development teams of the free/open source solutions [SpagoBI](#), [Spagic](#) and [Spago4Q](#) will be there to participate in the various sessions of the event, to meet you and answer all your questions. See you in Paris!

#### OW2 Germany Roadshow

**Location:** Berlin, Germany

**Date:** May 16<sup>th</sup>, 2011

SpagoWorld participates in the [OW2 Germany Roadshow](#). Acting as a meeting point for potential partners and members, the event aims at developing awareness about the role that OW2 Consortium is playing in the open source domain at the international level. Stefano Scamuzzo, SpagoBI International Manager at Engineering Group, presents the free/open source solutions [SpagoBI](#), [Spagic](#) and [Spago4Q](#).  
More details and the agenda are available [here](#).

#### ICSOB 2011

**Location:** Brussels, Belgium

**Date:** June 8<sup>th</sup> - 10<sup>th</sup>, 2011

Spago4Q participates in [ICSOB 2011](#), the international conference that brings together academic researchers and industry leaders interested in the software industry, with a specific focus on the business of software.  
The conference session dedicated to Open Source includes the presentation of a paper "Improving Quality and Cost-effectiveness in Enterprise Software Application Development: an Open, Holistic Approach for Project Monitoring & Control" as a result of the collaborative work between Engineering Group and the Department of Information Technologies, University of Milan.  
[More details](#)

#### SIMPDA 2011

**Location:** Campione d'Italia, Italy

**Date:** June 29<sup>th</sup> - July 1<sup>st</sup>, 2011

SpagoWorld and Engineering Group sponsor and participate in [SIMPDA 2011](#), the First International Symposium on Data-Driven Process Discovery and Analysis, which is organized by the [University of Milan](#), participating in the [OW2 BI Initiative](#).

Stefano Scamuzzo, SpagoBI International Manager, and Antonio Majori, founder of Spagic project, give a speech entitled "Business opportunities in applying Process Mining to operational and management enterprise processes: the point of view of a Systems Integrator".  
The **Call for papers** is open now.

### Ecosystem

#### New SpagoWorld partnership program!

SpagoWorld launches a partnership campaign: become a partner now and you'll take advantage of some special benefits and discounts! [More details](#)

Moreover, SpagoWorld team announces the launch of a new free partnership option: **SpagoBI Supporting Partnership**. It is suitable for companies and organizations that are already using SpagoBI Suite and want to highlight their knowledge of the suite and/or contribute to SpagoBI global affirmation. [See terms and benefits](#)

#### SpagoBI supports UShareSoft in the development of Elastic Appliances

[SpagoBI Elastic Appliance with UShareSoft Open Appliance Studio](#) is available now. UShareSoft Elastic Appliances allow to automatically configure complex, multi-tier software solutions in just a few minutes, supporting ISVs Automate Software Configuration in the Cloud for "Hands-Off" Deployments.  
[More details](#)

#### Spago4Q at ePractice workshop "Open Source: Its place in a cross-border environment"

Spago4Q participated in the workshop "Open Source: Its place in a cross-border environment", taking place in Brussels (Belgium) on 7<sup>th</sup> April 2011. Davide Dalle Carbonare, Spago4Q Architect, gave a speech entitled "The SLA approach in open source quality improvement in products & projects realization and in services supply through an effective OSS measuring and monitoring platform", within the conference session on Open Source Interoperability.  
The presentation is available now [here](#).

#### Spago4Q platform supports the comparative analysis on open source forges

Spago4Q platform supports the comparative analysis on data automatically collected from different open source projects forges, which provide valuable information on the forges growth trend and on the life-cycle of the hosted projects. This service allows to produce statistical analysis on study and research activities as well as to support the evaluation and selection of open source projects. The updated analysis are available in the [Italian Open Source Competence Center website](#).

#### Engineering Group in OW2 Board of Directors for 2011

Also this year Engineering Group actively participates in OW2 Consortium Board of Directors through Gabriele Ruffati, Architectures and Consulting Director, Engineering Group's Research and Innovation Division, who has been elected as Corporate Members representative of OW2 Board for 2011.  
For further information about the elections results, click [here](#).

#### New article on the upcoming SpagoBI 3.0 release

The article (in Italian) focuses on the announcement of the release date of SpagoBI 3.0, the only entirely open source Business Intelligence suite, taking place in June. It will include a wide range of new functionalities, services and solutions, such as the ad-hoc reporting, in-memory analysis, mobile BI, cloud BI, real-time BI and the location intelligence.
