Events

Outcomes of SpagoBI trip to the U.S.A.

Location: New York - Boston, United States

Date: 7th-11th November 2011

In the first week of November, SpagoBI team made a trip in the United States and met various enterprises, integrators, consultants and analysts in New York and Boston, in order to present the novelties of the latest version of the suite and its unique offering, which defines it as the only complete and entirely open source Business Intelligence suite.

During the tour, SpagoBI team has met Gartner, Forrester Research and Ventana Research analysts, in order to face the positioning of the suite in their upcoming reports. SpagoBI team has also given a guest lecture within the graduate courses on Corporate Entrepreneurship, Managing Growing Enterprises, at the Polytechnic Institute of New York University, focusing on the business opportunities provided by open source software and SpagoBI suite (see details below). This experience has given some noticeable results. In the near future, further important news on the presence of SpagoBI suite in the U.S.A. will be announced. Stay tuned!

Ecosystem

SpagoBI: an open source Business Intelligence solution for Engineering Education

Based on some dedicated studies conducted by the students of the Polytechnic of Coimbra on various open source Business Intelligence solutions, the paper presents how OS BI meets users' needs for innovation, interaction, evolution, time and money saving. Moreover, the paper gives a comparative overview on the features and strength points provided by the most important solutions available on the market, including SpagoBI suite. In details, SpagoBI is described as one of the most complete BI packages in this domain, which is released as only one stable community version, under the LGPL license.
