

SpagoWorld Newsletter N°8 - June 2009

Dear Subscriber,

This month news, upcoming events and ecosystem communications mainly concern the upcoming SpagoBI 2.2 version, some new partnerships and an interesting video interview given by Grazia Cazzin, SpagoBI project leader.

Best regards,

SpagoWorld Communications

News

❑ SpagoBI 2.2 coming soon

SpagoBI 2.2 offers a brand new function for the management and execution of analytical documents. It will be released at the end of June.

The new module, called *Document Browser*, has been developed in order to make users' operations particularly intuitive and simple on their analytical documents repository. It regards the presentation modality (tree, folders, list), search, arrangement, assembling and execution. In addition to an attractive look&feel, the Document Browser allows to display more documents at the same time with a tab structure and it optimizes the navigation performance to documents in all cross routes (Cross Navigation). Moreover, in the new 2.2 version the innovations regard the consolidation of the KPI engine, the documents print option and the multi-format export function.

❑ Spagic 2.5.1 now available

Spagic 2.5.1 is now available. You can download it [here](#).

This is a maintenance release containing some new features and bug fixes. For the complete list of changes please read the release notes.

❑ Video Interview on SpagoBI

A new interesting video interview given by Grazia Cazzin, OS BI Competence Centre Director of Engineering Group and SpagoBI project leader, is now available in the Resource area.

It offers a brief presentation of the new version of SpagoBI, the free Business Intelligence platform, and of its role in the Open Source BI market. A particular attention is paid to SpagoBI Community and the role of SpagoBI users in the platform development.
