

Spagic Webinar

Title: Distributed OSGi nodes with Spagic

Speaker: Gianfranco Boccalon, Spagic Project Leader

Date: December 17th, 2010

Time: 4:30 p.m. (CEST)

Abstract:

The webinar offers a presentation on how Spagic supports the services distribution on multiple servers. Moreover, it illustrates Spagic standard execution mechanism, based on OSGi EventAdmin specifications, and the extensions that allow its use on multi-node architectures.

The presentation provides technical information. A minimal knowledge of OSGi is suggested.
