

Spago4Q Webinar

Title: Open Quality with Spago4Q

Speaker: Davide Dalle Carbonare, Spago4Q Architect and QualiPSo project representative

Date: December 20th, 2010

Time: 4:30 p.m. (CEST)

Abstract:

The webinar offers an introduction to the main aspects concerning the usage of Spago4Q, the free/open source platform to measure, analyse and monitor Quality of products, processes and services. In particular, it focuses on the definition of indicators, the organization and extraction of data and the presentation of the analysed data in an aggregated and detailed way.
